8.1 Chemical and physical parameters

Generally the target values of the specification are minimum values for the average values (average value > target value). The designated tolerance values (upper limit value and lower limit value) refer to the single pieces and are valid for the complete scope of testing (piece < upper limit value resp. piece > lower limit value).

Parameter	Unit of measure	Target value	Upper limit value	Lower limit value
Weight per piece	g	88	100	85
Length	mm	95	105	90
