

Analysis certificate

Label : Hoegaarden White (Bottle/Can)

1. Ingredients

Brewing water (80,2%), Malt (12,1%), Wheat (6,8%), Hops (0,05%), Spices: coriander, natural orange peel (0,8%), Sugar (0,05%), Yeast (0,06%)

2. Product composition

Original gravity	°Plato	11.7
Apparent extract	°Plato	2.3
CO2 bottle	g/l	5.50
CO2 Can	g/l	5.50
CO2 Keg	g/l	
Sulphite	< mg/l	10
Alcohol content	ml/100 ml	4.9
Alcohol content	g/100 g	3.8
Turbidity	EBC units	< 6
Energetic value	Kcal/l	448
Energetic value	KJoule/l	1,874

The presence of yeast in the bottles is a necessary step in the brewing process and does not harm human health.

We attest that the analysed beer is free of

- sorbic acid, polyvinyl pyrrolidone and benzoic acid
- additives (unless otherwise mentioned on the label)
- heavy metals exceeding legal specifications
- constituents harming human health and other dangerous chemical or biological constituents
- any GMO or raw material which is genetically modified according to EU1829/2003 and EU1830/2003

We attest that the level of methylic alcohol and other toxic substances are in accordance with the international standards.

Microbiological specifications

- absence of pathogenic micro-organisms and coliforms
- lactic acid bacteria and pediococcus : 0/100 ml
- yeasts (anaerobic incubation) : 0/100 ml

Allergens

- contains Gluten
- SO2 < 10 ppm
