A simple-fit font for effortless,
non-invasive tap installation.

MonoFit[®]

MonoFit®

Easy-fit elegance for T2 and T3 integrated taps, delivering maximum impact with minimal cutting.

Designed to minimise work surface cutting, the MonoFit® font ensures easy and convenient installation with a small, standard-size, single service hole.

At a glance.

Configuration

Integrated Tap System

Colour

Black Silver

Compatible with

T3

Advanced hot tap technology for superior, sustainable hot and chilled drinks.

T2

Drink differently with digital precision and freshly-filtered water on tap.

Effortless installation.

Enhance any space effortlessly by combining a MonoFit® drip tray with a premium T3 or T2 filtered water tap. MonoFit® provides a versatile solution for simple, straightforward installation into virtually any material.

The innovative, non-invasive design eliminates the necessity for specialized cutting, preserving expensive countertop materials such as marble or granite, whilst the non-destructive fixings maintain a secure, watertight seal with the surface below.

One size fits all.

Engineered with precision, the MonoFit® font minimises countertop cutting by enabling all services to be seamlessly installed through a single, standard-sized hole.

The simple, singular 60mm circular drill incision allows for swift installation with minimum disruption and down time, removing 90% less countertop material than a standard font.

T3 MonoFit® font
Circular cutout
60mm diameter.

 90% smaller cut out

T3 regular font
Rectangular cutout
146mm x 311mm.

Simplicity at its best.

Discreetly integrating into any countertop with a mere 16.5mm elevation, MonoFit® elevates any kitchen or communal area with easy access to fresh, great tasting, filtered drinking water, whilst the antimicrobial touch panel provides peace of mind in communal areas.

Upgrade in an instant.

Providing a simple solution for upgrading previous integrated tap installations, the MonoFit® versatile drip tray can be placed neatly over previously made cut outs, allowing a quick and easy upgrade to your filtered drinking water system with a T2 or T3 tap.
