| The beans from our coffee heroes are roasted in the Rapunzel roastery. Our well-experienced roast masters pay great attention to the high quality of the raw coffee beans and see to it that the perfect roasting time and roasting temperature is found for every bean and for every origin.  |  |                       |                                   |
| Our coffee is roasted in a traditional drum roaster in a gentle, long-lasting process at low temperatures. This gives the coffee time to unfold the great variety of its favors. This process is gentle on the beans, but also for the environment, because the energy that is released during the roasting process is reused through recirculation and waste heat recovery. The coffee beans are then finely ground and packaged. |  |                       |                                   |
