Product Codification:	Each bag is coded on one side for each day of production and identification of the batch: type of product, week and year of production, species, presentation, line of closure, type of coverage liquid, day of the week, boat used, trip and year of capture, date of preparation and expiration (according to the customer's requirement). <u>Example: RP26T B011W-3.</u> Digits that facilitate its traceability.													
Inkjet Format:														
Determined Use:	The product is intended for direct consumption. Once opened it must be consumed immediately, or removed from the container and stored in refrigeration. It should not be kept in the open container.													
Storage conditions and conservation:	It must be kept at room temperature, in a cool and dry place. Avoiding over manipulation. Maintain a maximum stowage of 1 pallet high.													

	Material	Dimension and Weight
Primary Product Packaging:	Retortable Pouch bag.	420x320mm – 45g ± 5%
