# Product Specification

**Product name:** Spice preparation for Peperoni sausage \*extra hot\*  
**Article-no.:** 10015  
**Customer no.:**  
**Name of customer**  
**Article-no. customer:**  
**Version:** HÖL0011 valid from 29.12.2022

**09. Codification:**

Example: P07166117; P: production lot; 07: for the year; 166117: singular number from the computer system

**10. EAN-Code:**

1 kg bag=4022197256011

**11. Storage and transport conditions:**

Keep cool and dry, protect against sun, max. + 25 °C. No guarantee for open bags. Short-term elevated temperatures (e.g. transport) do not affect the quality of the product, but should be limited to an unavoidable level.

**12. Shelf life:**

365 days

**13. Remaining life:**

182 days

**14. Quality marks:**

If the product name contains the word "-halal-" that means the product is halal-certified. This product was manufactured, filled and packed according to islamic laws and is recognized as halal.

The product corresponds to the current EU food law, in particular the EU-VO 1881/2006 maximum levels for certain contaminants in or on food and feed and is exclusively for their commercial production.

We guarantee a consistent sensory profile for every delivery our product. The visual impression can be due to raw materials and nature vary within slight tolerances. Warehouse-related changes are possible but are an unrestricted use of the product within the specified minimum shelf life, in compliance with the specified storage conditions, in the original sealed container not opposite. In general, it is safe to exceed the specified storage temperature for transport over a reasonably short period of time

**15. Trial taking:**

We assure the analytical valuation based on our modified sample drawing procedure according to ISO 948:2009 (test of quantitative and qualitative characteristics of spices and additives).

**16. Foreign matter statement:**

Our raw material, semi- and finished products are controlled about pests, contaminates like glass, stones and other foreign materials by sieving and metal detection.

This system of product assurance is based on our HACCP-concept.

For products / raw materials, especially small quantities and hand mixes, which are sent as samples, there is no processing / cleaning in our facilities.

We can eliminate the last product risks such as foreign components do not completely exclude and recommend the user of this article, before further use  
Use the usual safety measures for food such as metal detection or sieving.
